SCOPUS INDEXED

Peer Reviewed Journal

Frequency: Quarterly i.e., March, June, September
and December

Economic Affairs, Quarterly Journal of Economics, is a Peer-Review quarterly publication based on multi-disciplinary subjects of practical affairs. It explains the social and economic problems across the globe. The journal deliberates the basic knowledge of the economy of the country tries to spread the economic information to the world. It enriches vast disciplinary on Economy of Rural and Urban cities, Political Affairs economic and social problems. It accepts full-length research papers, Book reviews, Ph.D. Thesis, Proceeding of Seminars/Conferences and Short communication.

Subject Coverage: Agricultural Science, Rural development, Economics, Micro Economics, Finance, Agricultural Economics, Agricultural Production Economics and Farm Management Macro and Micro Economics Agricultural Marketing and Supply Chain Management Entrepreneurship and Small business management Natural Resource and Environmental Economics Agricultural Finance, Cooperation and Project Management Economics of Agricultural Mechanization Economics of Diseases and Pest Management.

AGRICULTURE

International Journal of Agriculture, Environment and Biotechnology

Print ISSN : 0974-1712

Online ISSN : 2230-732X

Editor-in-Chief: Dr. Amitava Rakshit, BHU, Varanasi, India.

NAAS Rating: 4.54

Peer Reviewed Journal

Frequency : Quarterly i.e., March, June, September & December

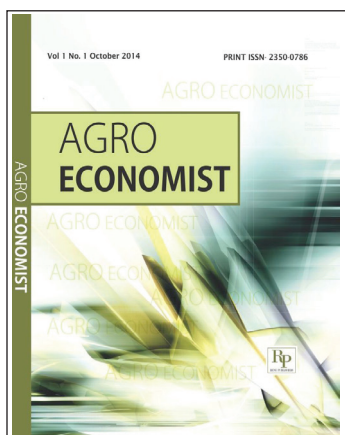

International Journal of Agriculture Environment & Biotechnology is a quarterly publication encompassing multi-disciplinary subjects of Plant sciences. This Journal deliberates the basic themes of enriching knowledge and keeping abreast with the latest development in Agriculture, Horticulture, Environment & Biotechnology at International level, bringing discoveries and innovations to farm level feasibility. It accepts full-length research papers, reviews, short communication and popular articles for farmers' corner for publication. Our objective is to reach the scientific as well as technological development to the scientists and policy makers to look forward. Farmers' cell is the innovative inclusion that may keep farming community updated with the latest development and practical information. The objective of this journal is to encourage inter-disciplinary/multidisciplinary research team to increase crop productivity and to solve farmers' problems.

Subject Coverage: Agricultural Science, Animal Science, Atmospheric Science, Bioresources, Earth Science, Fisheries, Food Science, Plant Sciences, Pharmaceutical Science, Rural development, Waste Management.

Agro Economist : An International Journal

Print ISSN : 2350-0786

Online ISSN : 2394-8159

Editor-in-Chief: Dr. Sudhakar Dwivedi,
Division of Agricultural Economics & Statistics,
Faculty of Agriculture, SKUAST-Jammu, India

NAAS Rating: 4.58

Peer Reviewed Journal

Frequency: Quarterly i.e., March, June, September
and December

Agro-Economist is an International, referred research journal published quarterly. It publishes the research articles and case studies in the field of agricultural economics and broadly covers all fields of agricultural sciences with Economic aspect attached to them. Papers must be based on theoretical/empirical research, practical experience/success stories and comparative economic analysis of existing and new technologies, schemes and methodology, etc. in the field of agriculture.

Subject Coverage: Agricultural Science, Rural development, Agricultural Economics, Agricultural Production Economics and Farm Management Macro and Micro Economics Agricultural Marketing and Supply Chain Management Entrepreneurship and Small business management Natural Resource and Environmental Economics Agricultural Finance, Cooperation and Project Management Economics of Agricultural Mechanization Economics of Diseases and Pest Management

Print ISSN : 2249-5290

Online ISSN : 2454-9541

Editor-in-Chief : Dr. Deb Prasad Ray,
ICAR-National Institute of Natural Fibre Engineering and
Technology, Kolkata, India

NAAS Rating : 4.17

Peer Reviewed Journal

Frequency : Half Yearly i.e., June and December

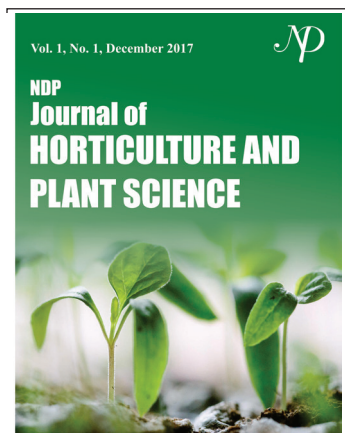

International Journal of Bioresource Science (IJBS) is an internationally peer reviewed periodical encompasses diverse domain namely agriculture, horticulture, environment, forestry, animal husbandry, fisheries, geography, etc. This journal focuses on biomass keeping a strong liaison with a set of multifaceted subjects to understand the continuum in the ecosystem. The journal's aim is to steer and propagate up to date knowledge in all the related areas of bioresources. The journal publishes original papers, review articles, case studies and other material for the professional in the fundamentals, applications and management of bioresource. IJBS is striving to provide the best platform for researchers and scholars worldwide to exchange their latest findings. Authors are encouraged to submit complete, unpublished, original works that are not under review in any other journals. The scopes of the journal include, but are not limited to, the following fields:

Subject Coverage: Agricultural Science, Animal Science, Atmospheric Science, Bioresources, Earth Science, Fisheries, Food Science, Plant Sciences, Pharmaceutical Science, Rural development, Waste Management.

NDP Journal of Horticulture and Plant Science

Print ISSN : 2582-404X

Online ISSN : 2582-4732

Editor-in-Chief: Dr. Arindam Barman,
Department of Horticulture, North-Eastern Hill University,
Tura Campus, Meghalaya. India

Peer Reviewed Journal

Frequency: Half Yearly i.e., June and December

RNI Number is : DELENG / 2018/78099

The journal aims to provide the most complete and reliable source of information on current developments in the field of horticulture, plant sciences and other interdisciplinary/multidisciplinary research. The emphasis will be on publishing quality research articles, reviews and short communications in all areas of horticulture, plant sciences and other interdisciplinary areas and make them available to researchers worldwide.

IMPORTANT NOTE:

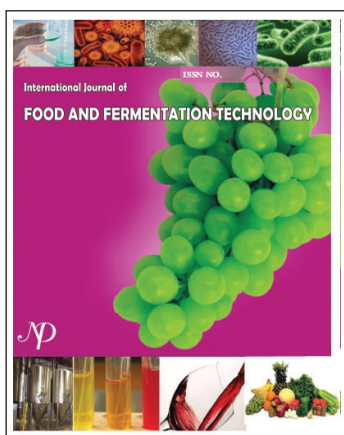

All the authors are requested to check the originality of their articles before submitting it to JHPS. In case, any article is found to be Duplicate submission, fabricated data, cut and paste (Plagiarised), at ANY STAGE of processing of your article, following actions will be taken:

FOOD SCIENCE

International Journal of Food and Fermentation Technology

Print ISSN : 2249-1570

Online ISSN : 2277-9396

Editor-in-Chief:

Peer Reviewed Journal

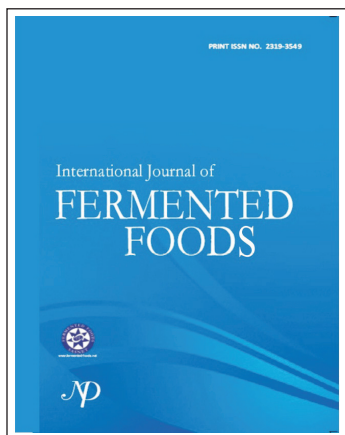

Frequency: Half Yearly i.e., June and December

This Journal would publish research papers on all the subjects related to the Food and Fermentation Technology. These include the work related to preservation, processing and fermentation technology. All aspects of food and fermentation technology would be considered. Papers on bio-technology, bio-chemical, toxicological aspects having bearing or are related with food would be welcomed. R & D work related to the fermentation covering microbiology, bio-chemical, genetics, indigenous fermented foods, toxicology or nutritive value would be included. Article highlighting the food standards and safety issues will be given special emphasizes. Preparation and evaluation of alcoholic beverage would be an important aspects of the articles published. The review on any aspect of food processing, composition, nutrition, and fermentation would be published/considered. Management of food processing industrial waste would be an integral component of the papers. The other aspects of food processing like low temperature, preservation, by typing dehydration, thermal processing, irradiation emerging technologies viz. ohmic preservative, pulse electric field, high pressure, preservation, emzymology, microbiological quality, food safety and standards, food engineering.

International Journal of Fermented Foods

Print ISSN : 2319-3549

Online ISSN : 2321-712X

Editor-in-Chief: Prof. Baboo M. Nair,
Lund University, Sweden.

NAAS Rating : 3.93

Peer Reviewed Journal

Frequency : Half Yearly i.e., June and December

The International Journal of Fermented Foods aims to publish original articles which contain results of research in food science related to fermentation as a method of food processing and preservation. Fermentation is a process of food preservation with great potential. It is an environment friendly process, consumes less energy and produces less waste. It is easy to manage both under simple house hold conditions and in an industrial scale. It could be applied to a wide variety of raw materials to produce a variety of different finished food products. It has the advantage of being generally regarded as safe (GRAS) and offers immense opportunities for production of novel products which can be classified as “organic foods”, “natural foods”, “health foods”, “convenience foods”, “ethnic foods” “neutraceuticals”, “functional foods” and not to forget “foods for clinical nutrition”. Cereals, pulses, root crops, vegetables, fruits, meat and fish are preserved by one or other method of fermentation in some part of the world.

It will publish high-quality research articles that meet the general criteria of significance and academic excellence, written in English, in all areas of the subject Fermented Foods. The journal will be published half yearly to start with and then converted to quarterly in two years. It will also accommodate review articles on any area of fermented foods viz., technology, microbiology, biochemistry, nutrition, health, marketing, etc. It will also publish work on probiotics, prebiotics, synbiotics, neutraceuticals and related clinical studies.

Theriogenology Insight: An International Journal of Reproduction in All Animals

Print ISSN : 2249-6610

Online ISSN : 2277-3371

Editor-in-Chief: Dr. Saber Mohamed Abd-Allah, Department of Theriogenology, Faculty of Veterinary Medicine, Beni-Suef University, Egypt
NAAS Rating: 4.50

Peer Reviewed Journal

Frequency : Half yearly i.e., April & December

Theriogenology Insight is a peer-reviewed, journal which focuses on all aspects of reproduction of living organisms from protozoan to mammals including human.

Theriogenology Insight publishes research papers, reviews, case reports, technical notes and short communication reporting significant results obtained using new techniques. Encouraged topic areas include: reproductive biology, physiology, endocrinology, biochemistry, pharmacology, toxicology, genetics, reproductive cycles, functional morphology, phylogeny, behavioral and regulatory mechanisms, including genetic, endocrine and molecular studies in addition, cryobiology of gametes and embryos, conservation biology and assisted reproduction of domestic, wild, avian, aquatic species and human.

Subject Coverage: Reproductive biology, Physiology, Endocrinology, Biochemistry, Pharmacology, Toxicology, Genetics, Reproductive Cycles, Functional Morphology, Phylogeny, Veterinary Microbiology, Veterinary Pathology, Veterinary Pharmacology and Toxicology, Livestock Product and Technology, Livestock Production and Management, Veterinary Public Health and Hygiene, Veterinary Anatomy, Poultry Science, Laboratory Animals and Wild Animals.

Journal of Animal Research

Print ISSN : 2249-5290

Online ISSN : 2277-940X

Editor-in-Chief: Prof. Neelesh Sharma, SKUAST, Jammu, India

NAAS Rating: 5.43

Peer Reviewed Journal

Frequency: Bi Monthly i.e., Feb, Apr, June, Aug, Oct and Dec.

The Journal of Animal Research, which is published Bi Monthly in Print and Electronic form, accepts exceptionally exciting, novel and timely communications presenting new and original research work for publication keeping in mind the all round welfare of domestic animals including poultry, companion animals, wild animals and experimental models in lab animals.

Articles published in the Journal of Animal Research cover a broad range of explorative topics in all subjects of veterinary and animal sciences including animal production, reproduction, growth and Health aspects of domestic animals. This includes veterinary medicine, veterinary surgery, veterinary gynaecology and obstetrics, animal genetics and breeding, animal nutrition, veterinary physiology and biochemistry, veterinary parasitology, veterinary microbiology, veterinary pathology, veterinary pharmacology and toxicology, livestock product and technology, livestock production and management, veterinary public health and hygiene, veterinary anatomy, poultry science, laboratory animals and wild animals. The journal is also focused on research and management of laboratory animals (e.g. rat, mice, rabbit, guinea pig etc.) and wild animals.

International Journal of Bioinformatics and Biological Sciences

Print ISSN : 2319-5169

Online ISSN : 2321-7111

Editor-in-Chief: Dr. Swati Chakraborty,
Guru Nanak Institute of Pharmaceutical Science,
Kolkata, India

Peer Reviewed Journal

Frequency : Half Yearly i.e., June and December

International Journal of Bioinformatics and Biological Sciences is an open access Half Yearly publication that comprises various inter-disciplinary domains of biological sciences. The said journal apprises the latest development in the disciplines of Bioinformatics, Biotechnology, Computational Biology, Genomics, Proteomics, Agriculture, Agri-Informatics, Animal-Veterinary Sciences, Chemoinformatics, Pharmacology, Pharmaceutical Science, Nanotechnology, Biological Data mining at International level, to the global scientific community. The journal attracts and publishes the original research articles, short communication and reviews from researchers and scientists of repute in their respective fields. Our objective is to keep life science community updated with the latest development and recent advances in fast growing fields of biosciences. The journal also encourages inter-disciplinary/ multidisciplinary research teams for understanding biological mechanisms of various processes to meet the requirement of different fields and promotes biological knowledge. International Journal of Bioinformatics and Biological Sciences is published in print as well as in electronic form by New Delhi Publishers and accepts exceptionally exciting, novel and timely communications presenting new and original research work.

SOCIAL SCIENCE

International Journal of Inclusive Development

Print ISSN : 2454-4132

Online ISSN : 2582-4740

Editor-in-Chief: Dr. Chandan Kumar Panda,
Assistant Professor Department of Extension
Education, BAU, Sabour, Bihar, India

Frequency : Half yearly i.e., June & December

Peer Reviewed Journal

The International Journal of Inclusive Development (IJID) is a half-yearly publication of scholarly work on developmental issues, findings, research works, cases etc. done around the world by universities, research institutions, professors, research scholars, freelance writers, policymakers, governmental officials, administrators, politicians etc. The development issues include –

- (1) Development in Science & Technologies in agriculture, engineering and medical
- (2) Social, political and economic development

The International Journal of Inclusive Development (IJID) make it mandatory all the articles have undergone a rigorous peer review process after the initial screening by the editorial board. On the peer review process, the article is sent to two referees having research experience on the submitted article by authors. Authors have to make necessary modification as per reviewer comments.

Online ISSN : 2322-0465

Editor-in-Chief: Dr. P.K. Paul, Executive Director, MCIS, and Assistant Professor, Department of Computer and Information Sciences and Information Scientist, Raiganj University, West Bengal, India

Peer Reviewed Journal

Frequency: Half Yearly i.e., June and December

International Journal of Applied Science & Engineering [IJASE] is a peer-reviewed International research journal aiming at promoting and publishing original high quality research in all disciplines of engineering and applied technology. All research articles submitted to IJASE should be original in nature, never previously published in any journal. All the submissions will be peer-reviewed by the panel of experts associated with concerned field. Submitted papers should meet the internationally accepted criteria and manuscripts should follow the style of the journal for the purpose of both reviewing and editing.

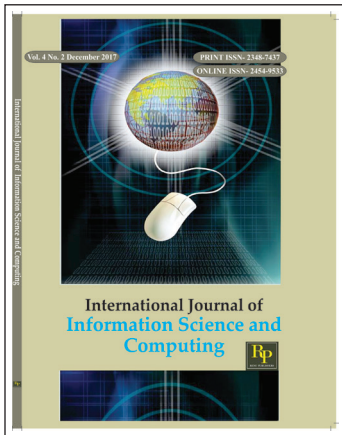

Subject Coverage: Applied Chemistry, Applied Physics, Astronomy, Applied Earth Science, Environmental Science, Applied Biology, Computer Science, Applied Mathematics, Applied Statistics and Management Science, Information Sciences, Aerospace engineering, Agricultural engineering, Architectural engineering, Bio-engineering and biomedical engineering, Chemical engineering, Civil engineering, Computer engineering, Computer science and information science, Electrical engineering and electronics engineering, Environmental engineering, Industrial engineering, Metallurgical engineering, Ceramic engineering, Materials science, Metallurgy, Mechanical engineering, Nuclear engineering, Petroleum engineering, Plastics engineering and polymer science and more.

MEDICINE

Journal of Advances in Medicine

Print ISSN : 2277-9744

Online ISSN : 2319-4324

Editor-in-Chief: Dr. Anup Singh,
BHU, Varanasi, India

Peer Reviewed Journal

Frequency: Half Yearly i.e., June and December

Journal of advances in medicine is a peer-reviewed, journal which focuses on all aspects of recent advances in medicine especially focusing on the use of new technologies in diagnosis and treatment.

Journal of Advances in Medicine publishes research papers, reviews, case reports, technical notes and short communication reporting significant results obtained using new techniques. Encouraged topic areas include laboratory medicine, endocrinology, biochemistry, pharmacology, toxicology, genetics, reproductive cycles, functional morphology, phylogeny, behavioral and regulatory mechanisms, including genetic, endocrine and molecular studies

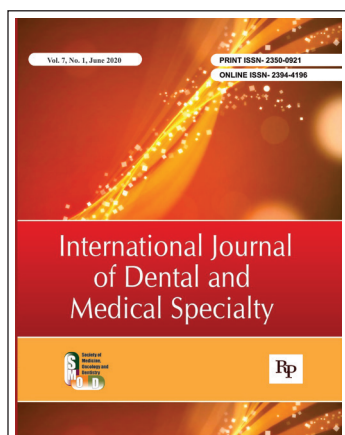

This journal will deliver original investigations in the broad fields of laboratory and clinical medicine to internists, pathologists and pediatricians in academic settings. Interdisciplinary and cross-disciplinary in scope, it keeps readers up-to-date on significant biomedical research from all subspecialties of internal medicine. Aiming to improve the exchange between basic and clinical science, it focuses on research in the area generally termed 'translational medicine.' It encourages submission of studies describing preclinical research with potential for application to human disease, and studies describing research obtained from preliminary human experimentation with potential to refine the understanding of biological principles underpinning human disease.

Online ISSN : 2454-9525

Editor-in-Chief: Prof. Biplab Laho Choudhury,
Center for Journalism and Mass Communication,
Visva-Bharti, Santiniketan, West Bengal, India

Peer Reviewed Journal

Frequency: Half Yearly i.e., June and December

From the premises that both fields of peace, Education and development are deeply intertwined in their practical and theoretical inception, dynamics and outcomes. The Journal promotes discussion about various issues in Education, peace research, nonviolent social change, peace and Environmental movements, sustainable development, human rights, self-determination, conflict resolution, and peace education. This journal is dedicated to enhancing discourse on a wide range of theoretical issues in Education and peace research and improving our knowledge in the quest for global peace. In particular, it wishes to address strategies to deal with local, regional, or global problems. For this purpose, we promote the dialogue between peace research and policy making communities. International Journal of education for peace and Development is published thrice a year.

International Journal of Peace, Education and Development (IJPED) offers a space for: Identifying and examining conceptual and practical linkages between the fields of Education peace building and development; • Fostering the theory-practice dialogues on issues of Education , peace building and development; • Evaluating peace Education and development policies and programmes and their negative and positive impacts; • Generating critical awareness about strategies and alternatives, and sharing lessons and best practices on mutually supportive means to prevent conflict, sustain peace and build human development.

CALL FOR PAPERS

Authors are invited to submit their manuscript to any ndp Journal through our website online. You can visit our website at www.ndpublisher.in

For any queries related subscription please email us at

ndpublishers@gmail.com

Publish your journal with New Delhi Publishers

Let us help you, your association or society publish your new or existing journal(s).

If you wish to publish a new journal, please provide the following details.

- Title of the proposed journal
- Aims and scope of the proposed journal
- What is the schedule launch date for the journal?
- Phone No. and Email.

If you have an existing journal, please click [here](#) to submit the details.

For further information please email: **ndpublishers@gmail.com**

Authors are also invited to publish their research work in form of Research Thesis, Research Books, Conference Material, Book Review, Edited Books, Textbook.
